4TH MAN
ROASTERS

EVERY BAG FUNDS THE MISSION

The coffee in your cup is changing the world.

This coffee is roasted by **Fourth Man Roasters**, a company with a simple, radical idea: keep none of the profit and give it all away. So every cup you enjoy does more than taste good. It helps change lives around the world.

- **World-class coffee.** Single-origin, micro-lot beans grown in the highlands of Zambia and Uganda, hand-picked and roasted here in America.
- **100% given away.** Fourth Man keeps zero profit. A percentage of our profits stays in Africa, and every remaining dollar funds the mission.
- **Real, lasting impact.** Orphan care, the fight against sex trafficking, outreach to unreached people groups, and so much more.
- **The coffee is only half the story.** Every bag turns a great cup into hope, care, and opportunity for people who need it.

Thank you for changing the world with us, one coffee at a time!
